In order for librarians and researchers to make the best use of the resources provided, we understand the importance of training and effective promotion of the services.

The partners are committed to providing appropriate long-term training on the use of online resources and more. Several training modules, produced by the partners and field-tested by librarians and information managers from 16 developing countries, are available online and on CD-ROM. The training material can be used by both librarians and researchers either individually or in groups. If you are interested in obtaining copies of training materials on CD-ROM, please write to hinari@who.int or agora@fao.org or oare@oaresciences.org

Technical Requirements

Participating institutions will need computers connected to the Internet with a connection of 56k band rate or higher. The system is designed to work with Internet Explorer version 4.0 or higher, Netscape version 6 or higher, Mozilla Firefox 1.0 or higher; however we recommend you use the most recent browser versions available for the best experience and for safer browsing. Users will also need a recent version of Adobe Acrobat viewer for the journal articles in PDF format.

Eligibility for Access to Research4Life

Local, not-for-profit institutions in two groups of countries may register for access to the journals offered through Research4Life.

The country lists are based on GNI per capita (World Bank figures). Institutions in countries with GNI per capita at or less than $1600 are eligible for free access. Institutions in countries with GNI per capita between $1601-$4700 pay a fee of $1000 per year / institution.

For more information regarding access, contact:

HINARI – hinari@who.int
AGORA – agora@fao.org
OARE – oare@oaresciences.org

Band 1 (free access)

Afghanistan
Bangladesh
Benin
Burkina Faso
Cameroon
Central African Republic
Chad
Comoros
Congo1
Côte d’Ivoire
Democratic People’s Republic of Korea
Democratic Republic of Congo
Djibouti
Eritrea
Ethiopia
Gambia
Ghana
Guinea
Guinea-Bissau
Guyana
Harry
Kenya
Kiribati
Kyrgyzstan
Lao People’s Democratic Republic
Lebanon
Libya
Malawi
Mali
Mauritania
Mongolia1
Mozambique
Myanmar
Nepal
Nicaragua
Niger
Nigeria
Papua New Guinea
Rwanda
Saudi Arabia
Senegal
Sierra Leone
Solomon Islands
Somalia
Sudan
Tajikistan
Tanzania
Togo
Tokelau
Tunisia
Uganda
United Republic of Tanzania
Uzbekistan
Viet Nam
West Bank and Gaza
Yemen
Zambia
Zimbabwe

Band 2 (low-cost access)

Albania
Algeria
Angola
Armenia
Azerbaijan
Bahrain
Belgium
Bhutan
Bolivia
Bosnia and Herzegovina
Brazil
Brunei
Cambodia
Cameroon
Canada
Cape Verde
Colombia
Costa Rica
Cuba
Dominican Republic
Ecuador
El Salvador
Fiji
Georgia
Guatemala
Honduras
Iraq
Jamaica
Jordan
Kazakhstan
Kenya
Kuwait
Kyrgyzstan
Laos
Lao PDR
Lebanon
Lesotho
Libya
Maldives
Marshall Islands
Micronesia (Federated States of)
Morocco
Namibia
Nauru
Nepal
Netherlands
Niger
Nigeria
Pakistan
Peru
Philippines
Poland
Portugal
Qatar
 Republic of Korea
Rwanda
Saint Lucia
San Marino
Sao Tome and Principe
Senegal

Solomon Islands
Somalia
South Africa
South Korea
Spain
Sri Lanka
Switzerland
Syria
Tajikistan
Togo
Trinidad and Tobago
Tunisia
Turkmenistan
Ukraine
United States
Vanuatu

1 Likely to move to Band 2 in 2012
2 Likely to graduate from Research4Life in 2012

- Online access to over 8100 peer-reviewed international scientific journals, books, and databases
- Searching by keyword, subject, author or language
- Resources available in several languages
- Full-text articles which can be downloaded for saving, printing or reading on screen
- Training in information literacy and promotional support

Together the three programmes – HINARI, AGORA and OARE – form Research4Life which provides developing countries with free or low cost access to academic and professional peer-reviewed content online. The Research4Life programmes constitute a public-private partnership between WHO, FAO, UNEP, Cornell and Yale Universities, more than 150 science publishers led by the International Association of STM Publishers, and technology partner Microsoft. The partnership’s goal is to contribute to the attainment of six of the UN’s eight Millennium Development Goals, by reducing the gap in scientific knowledge between industrialized countries and the developing world.

For further information please visit www.Research4Life.org
Launched in 2002, HINARI Access to Research in Health programme is managed by the World Health Organization (WHO) in partnership with Yale University Library and over 145 publishers.

4700 public institutions in 105 eligible countries have already registered for access to HINARI, which provides access to over 8100 peer-reviewed journals covering medicine, nursing and related health and social sciences. It also includes many databases, indexes and reference books, as well as journals in several languages. The journals can be searched through a special version of PubMed (Medline), and other article indexes. Access and further information is available at www.who.int/hinari or email hinari@who.int

“HINARI is very essential for this institution to meet the demands of the academic staff and with the dwindling of funds for journal subscriptions. We have seen HINARI transform institutions like ours.”

Gwagwalada Specialist Hospital, Nigeria

Launched in 2003, AGORA (Access to Global Online Research in Agriculture) is managed by the Food and Agriculture Organization (FAO) in partnership with Cornell University and over 70 publishers.

Over 2400 institutions have registered for access to AGORA which provides access to over 2800 high quality international journals covering agriculture, fisheries, food, nutrition, veterinary science and related biological, environmental and social sciences in public institutions across the world. It also includes several important databases and indexes. The journal can be searched using a special subset of CAB Abstracts. Access and further information is available at www.aginternetwork.org or email agora@fao.org

“Thank you very much for accepting our registration to use the online AGORA journals. I believe that this is the bridge that will give our scientists the chance to update their research.”

Institute of Marine Environment and Resources, Viet Nam

Launched in 2006, OARE (Online Access to Research in the Environment) is managed by the United Nations Environment Programme (UNEP) in partnership with Yale University and more than 75 publishers.

OARE provides access to more than 3900 scientific journals and other information resources in a wide range of disciplines contributing to our understanding of the natural environment, including environmental toxicology and pollution, zoology, botany, ecology, environmental chemistry, geology, hydrology, oceanography, meteorology, climatology, geography, environmental economics, environmental law and policy, conservation policy and planning, environmental biotechnology, environmental engineering, energy, and many other disciplines.

2200 institutions are now registered for access to these journals which can be searched through a number of abstracting and indexing databases. Access and further information is available at www.oaresciences.org or email oare@oaresciences.org

“OARE will play a key contribution to our knowledge of the natural environment...[and] stimulate better resource management geared to empower our efforts to fight poverty and create human livelihood.”

Minister of Environment in Sudan
