STM welcomes [Commissioner Moedas release](#)

STM publishers have been at the forefront of new technology and new business models since 1995.

STM was the first publishing sector to digitise and [supports immediate open access through sustainable business models](#).

More work needs to be done especially in finding solutions that balance local and global costs in gold OA publishing.

STM looks forward to working with the Dutch presidency and the European Commission, and hopes to make a contribution to their aim of advancing open access and open science.

Notes to Editors

[STM](#) is an international association of over 120 scientific, technical, medical and scholarly publishers, collectively responsible for more than 60% of the global annual output of research articles, 55% of the active research journals and the publication of tens of thousands of print and electronic books, reference works and databases. We are the only international trade association equally representing all types of STM publishers – large and small companies, not for profit organizations, learned societies, traditional, primary, secondary publishers and new entrants to global publishing.
