Scholarly collaboration networks  
offer popular services

readcube

At Elsevier, we're developing  
researcher-centric solutions:  
connecting platforms and bringing  
to that increased support from  
technologies such as big data

Prostate Cancer

Androgen Receptor Signalling and  
Prostate Cancer Genomics

## About

I am a urological surgeon and translational researcher by training and background and spent over 11 years at the University of Cambridge developing the clinical urological services there and forming a new translational research group.

I am now working at Elsevier as Senior Vice President for Research, where I shall be

Can we meet the genuine needs  
of researchers in ways that are  
sustainable to the scholarly  
ecosystem?

We invite you as the representatives of other publishing houses to adapt with us and shape that environment

THANK YOU!
