Advancing an online research communities ecosystem

Presented By: Esther Heuver, Product Manager Mendeley
Date: April 27, 2016
Hi, I’m Esther
The world of research is changing; competition is growing
Doing research is becoming increasingly demanding and complex.
Scholarly collaboration networks offer popular services
At Elsevier, we’re developing researcher-centric solutions: connecting platforms and bringing to that increased support from technologies such as big data.
Profile

David Neal

Professor
SVP Global Research (Academic)
Elsevier BV

About
I am a urological surgeon and translational researcher by training and background and spent over 11 years at the University of Cambridge developing the clinical urological services there and forming a new translational research group.

I am now working at Elsevier as Senior Vice President for Research, where I shall be

Research Interests
- Urology
- Surgical Oncology
- Prostate Cancer
- Androgen Receptor Signalling and Prostate Cancer Genomics

Can we meet the genuine needs of researchers in ways that are sustainable to the scholarly ecosystem?
We invite you as the representatives of other publishing houses to adapt with us and shape that environment
THANK YOU!
