TDM/ NLP Enhanced Platforms & Data Services

Laurence Bianchini, Consultant

2/27/17
Where research meets technology & science communication
3 offices in San Francisco, Luxembourg and Paris – since 2010

Virginie Simon, CEO
PhD in nanotechnology for cancer

Tristan Davaille, CFO
MBA in finance

Lauren Bianchini
COO, PhD in physics

Manu & Arthur
Front-End
Collaborative features

Luc & Corentin,
R&D, Machine-Learning, AI Semantics,

Julien & Yann
Combine 25 years at EBSCO, Swets, Wolter Kluwers
Our Story

2013 *MyScienceWork.com*

- Search engine to 66M publications
- Sharing & profiling platform for research

2015 **Polaris**

- Turnkey repositories
- Fully automatized
- Institutional dashboards

2016 **sirius**

Specializing in high added value semantic & data science services

2013 *MyScienceWork.com*
Some of our Partners
An On-Going Conversation with Researchers and Institutions

2015 Polaris
- Turnkey repositories
- Fully automatized
- Institutional dashboards

2013 MyScienceWork.com
- Search engine to 66M publications
- Sharing & profiling platform for research

2016 SRIUS
Specializing in high added value semantic & data science services

Data Science Services
- TDM for Smart Analysis
- Bibliometric studies & Reports
- Prepopulation
- Online dashboards
- Science metrics
- Research mapping

SAAS product
- Turnkey repositories
- Fully automatized profiling
- Institutional dashboards

Freemium
- Search engine to 66M publications
- Sharing & profiling platform for research
A Virtuous Learning Cycle
UVP & Competitive advantage

Content & Social Data
- 60M publications
- 6M patents from 37,842 journals
- 30M authors identified
- 9768 institutions
- 25 inst. customers

Our Technology
- Semantics / NLP
- Machine-Learning
- Social mining / TDM

Polaris
- Affiliation data
- Authorship data
- Dates

MyScienceWork.com
- 1.5M monthly users
- 500,000 registered profiles
- 2,000 weekly uploads

SRIUS
- TDM for Smart Analysis
- Bibliometric studies & Reports
- Prepopulation
- Online dashboards
- Science metrics
- Research mapping
MyScienceWork’s Expertise Served as a Service

Bibliometric Studies & Evaluation Reports
Find out about the key innovation trends in our field and how do you do, compare to others

Online Dashboards & science metrics
Track research projects progress and impact, identify our strengths and weaknesses

From Big Data to Smart Analysis
Research Activities Mapping / Science Metrics / Innovation Reports

Research Mapping
Get a complete picture of your scientific production across research units, disciplines, projects, collaborations, hot topics
Research Trends & Innovation Metrics

Who: Telecom ParisTech - A leading French CS institute

The need: Inform strategic decisions process based on evidence and data

The topic: Blockchain

The Sirius solution:
1. Analyze the whole literature
2. Define relevant innovation metrics
3. Identify trends, collaborations, leading experts and organizations
4. Deliver a complete & visual study
