The joint online seminar from the Japan Chapter of STM and the Japan Science and Technology Agency (JST) will explore research integrity and publication ethics, bringing together funders, academics, governments representations and those with an interest in scholarly publishing.

The morning session hosted by JST will be announced soon.

The afternoon session, hosted by STM will cover issues such as increasing the sharing, linking and citing of research data in scholarly research; technological trends in research data sharing; and the researcher’s view of the challenges and benefits of sharing research data, particularly as relates to the rapid increase in research on the ongoing COVID-19 pandemic.

Morning session organized by JST

Programme TBC
